Research

## Welcome!

The Prostate Cancer World Congress is the world's largest multidisciplinary prostate cancer meeting.

In August 2015, World Leaders will meet in Queensland Australia, bringing their depth of knowledge and experience to discuss all facets of prostate cancer management, treatment and scientific advancement.

The program will include streams in **Clinical Urology, Translational Science, Nursing and Allied Health and General Practice** and ensure the most contemporary information and research-validated findings are presented. There will also be a number of end-user oriented **Masterclasses**, as well as **Breakfast Sessions** and **Satellite Symposia** in association with our industry partners.

We are encouraging new research from across the world to be shared. We welcome abstract submissions for both poster and oral presentations. All abstracts will be published in the British Journal of Urology International.

Prostate cancer continues to be a topic of great debate across the world, both in medical circles and of course for the many men diagnosed. The need for increased education, improved treatment options and sharing of knowledge has never been more important.

We are proud to present the 2nd edition of this meeting in sunny Cairns, Australia. Your continued or first-time attendance and support of this premier educational event will ensure that we continue the ground breaking advances needed to support the thousands of men facing prostate cancer every year.

We welcome your involvement in this vital industry event.

### **Prof Tony Costello, AM**

President,  
Prostate Cancer World Congress 2015  
Executive Director,  
Australian Prostate Cancer Research

**June 2015**

## Our destination – Cairns, Queensland

The Congress setting in Cairns, Australia serves as a gateway to tropical north Queensland's most popular tourist destinations, including Port Douglas and the world-renowned and heritage listed Great Barrier Reef and Daintree Rainforest.

Cairns is surrounded by natural beauty. It is a vibrant tropical city and has the best of everything – great restaurants, shopping, cruises and tour attractions. To the north is world heritage national parks, to the south, rugged ranges and numerous waterfalls, head east to the Great Barrier Reef and west is mountainous rainforest and the plains of Atherton Tablelands.

Take some time following the Congress to explore the region and visit the neighbouring townships which all offer their own unique attractions and history.

The host city reflects a modern and vibrant atmosphere, the award-winning Cairns Convention Centre is a state of the art venue conveniently located in the heart of the city. All within easy walking distance of 7000 hotel rooms, restaurants, cafes and bars and just 10 minutes from the domestic and international airports.

### Getting to Cairns

Cairns and the Great Barrier Reef welcomes 2.2 million visitors each year. As Australia's northern gateway, the Cairns International Airport is serviced by up to 100 flights a week, offering more than 17,000 seats to nine Asia Pacific destinations.

The domestic network has up to 51,000 seats on more than 700 flights each week from 15 key city and regional destinations.

# Industry Partnerships

The Prostate Cancer World Congress is the world's largest multidisciplinary prostate cancer meeting.

The inaugural meeting held in Melbourne Australia in 2013 attracted delegates from over 35 countries worldwide.

Companies and industry organisations wishing to promote products or services to this sector must seriously consider participation in this event.
